DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on January 22, 2004 has been entered.

Election/Restrictions

2. Applicant's election without traverse of Species I in the reply filed on January 22, 2004 is acknowledged.
3. However, Claims 45-64 have all been examined as Claim 45, from which the non-elected claims 57-64 depend therefrom, is an allowable generic claim. Applicant timely traversed the restriction (election) requirement in the reply filed on January 22, 2004.

Information Disclosure Statement

4. The IDS filed January 22, 2004 has been received and considered.

REASONS FOR ALLOWANCE

5. Claims 45-64 are allowed.
6. The following is an examiner's statement of reasons for allowance:

While U.S. Patent No. 5,762,001 to Dworakowski discloses an articulated railway car capable of transporting automobiles in commercial rail service, the car comprising two units each with a floor, roof, a pair of side walls, and a pair of end doors, each of the side walls comprising a plurality of vertical posts supporting the roof of the car, a plurality of side wall panels connected to the vertical posts, wherein each of the side wall panels extend substantially the entire height of the side wall, and wherein at least some of the side wall panels have a plurality of perforations for ventilation, Dworakowski does not disclose that other portions of the side wall panels are left imperforate to reduce admission of airborne particles, or that the groups of perforations include a horizontal series of groups along the bottom of at least one level of the railway car to provide lighting and ventilation for workers adjusting wheel chocks at the floor of the level, nor that the groups of perforations are spaced inward from the edges of the panel and spaced vertically from one another in each panel. It is for these reasons and the previous indications of allowable subject matter made by the examiner's supervisor that Claims 45-64 define over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Pam Rodriguez whose telephone number is 703-308-3657. The examiner can normally be reached on Mondays 6 am -4 pm and Tuesdays 6 am -12 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jack Lavinder can be reached on 703-308-3421. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
